RE: University of Phoenix – Lone Tree, CO

Dear Stann:

Our recent job, University of Phoenix - Lone Tree Campus has been completed and we wanted to thank you for the time you put in to helping us complete our job in a timely manner. We are grateful to have you as part of the Big-D team to help us out when we need work done for any project. Thank you for the quality and consistency of work that you provide for our projects. It makes a huge difference to know that we have a subcontractor that we can trust with our clientele.

We look forward to working together with you on future projects. Let us know if there are any specific needs you have coming up or any way that we can help our business relationship in any way. Again, we appreciate what you do for us as a part of the Big-D team. You do great work.

Sincerely,

Ryan Carter, Vice President Fastrack
